GERMAN DELEGATION

COCOM DOC. 3736
Paris, October 26, 1959

MEMORANDUM BY THE GERMAN DELEGATION
ON THE EXPORT TO BULGARIA OF LITHIUM HYDROXYDE

The German authorities have received the application to license the export to Bulgaria of

3,3 kg lithium hydroxyde,
valued at \$31,-,
covered by AIL No. 35

The requested lithium hydroxyde is a part of a shipment of laboratory chemicals, totaling \$2059,- of which only the lithium hydroxyde is covered by the Embargo List. The lithium hydroxyde as well as the other non-embargoed chemicals will be used für chemical purposes.

The German authorities would like to grant the licence and submit the case within the framework of "di-minimis" procedure (without cut-off).

In view of the fact that this request is rather urgent, the German Delegation would be most grateful if the deadline could be fixed on November 5th, 1959.
